### Site Management Commitment – Water Stewardship

As part of Ingham's Environmental Policy commitment to the principles of Water Stewardship, I, Simon Vistarini, Plant Manager at the Somerville Primary Processing Plant, commit to supporting the pursuit of responsible Water Stewardship as follows.

I will support the site's efforts to achieve the outcomes of Water Stewardship, namely

- Good water governance,
- Good water balance,
- Good water quality, and
- Healthy Important Water-Related Areas.

I will respect the right of workers on-site to have access to safe water, adequate sanitation and hygiene.

I commit that the site will attempt to engage stakeholders throughout its efforts in an open and transparent manner and that the site will comply with all legal and regulatory requirements as well as respect legal and water-related rights and relevant water-related and international treaties.

I will coordinate with and support public sector agencies in their efforts to encourage water-related planning and implement water-related policies.

I will support the site's efforts to continually improve and adapt its Water Stewardship actions and plans and ensure that there is sufficient organisational capacity to successfully implement the Alliance for Water Stewardship Standard.

Lastly, I commit to disclosing material water-related information to all relevant audiences in an appropriate manner.
