Site Management Commitment – Water Stewardship

As part of Ingham's Environmental Policy commitment to the principles of Water Stewardship, I, Darren Stone, Plant Manager at the Edinburgh Parks Plant, commit to supporting the pursuit of responsible Water Stewardship as follows.

I will support the site's efforts to achieve the outcomes of Water Stewardship, namely

- Good water governance,
- Sustainable water balance,
- Good water quality status,
- Healthy Important Water-Related Areas, and
- Safe water, sanitation and hygiene for all.

I commit that the site will implement and disclose progress on water stewardship programs to achieve improvements in these water stewardship outcomes.

I commit that the site will attempt to engage stakeholders throughout its efforts in an open and transparent manner and that the site will comply with all legal and regulatory requirements as well as respect legal and water-related rights and relevant water-related national and international treaties.

I will implement water stewardship programs that are aligned to and in support of existing catchment sustainability plans.

I will support the site's efforts to continually improve and adapt its Water Stewardship actions and plans and ensure that there is sufficient organisational capacity to successfully implement the Alliance for Water Stewardship Standard.
